

Fitting Instructions

CAUTION

If your boat is new, use of this product is not recommended within the first four weeks of ownership of the boat.

Some of the compounds used in new boats can release gases that will cause the dyes in the boat cover to transfer to the boat, potentially staining the boat or it's components. Boat covers can be used safely after this introductory period.

CONTENTS

1 x Storage Bag

1 x Cover

1 x Camlock Buckle (metal)

excludes
MA501 Jumbo
MA601 Inflatable
series.

4 - 16 x Tie Down Straps.

2 x Trailing Straps

excludes
MA601 Inflatable series.

NOTE: Number of **Tie-downs** will vary according to the size of your cover.

1. Locate front of cover. (Tag indicates front.)

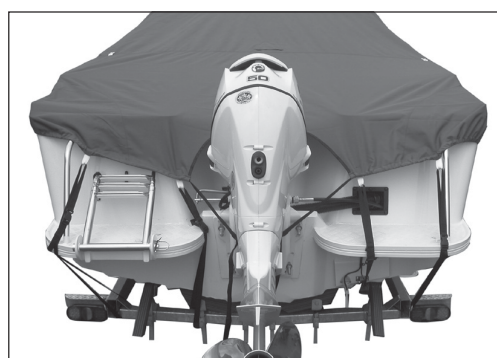

2. Fit front end of cover over bow and unroll over Boat.

3. Thread tie-down through webbing loop and around Trailer. (Webbing loops sewn at intervals around cover edge.)

4. Thread end of webbing through buckle.

5. Repeat steps 3 & 4 on all webbing loops.

6. Thread hem webbing through camlock buckles and pull through evenly.

7. Tighten all buckles.

8. Thread traling straps though webbing strips and around boat. (Tighten webbing strips located at intervals on top of cover).
